

Over a century after its creation, Alexia Leleu is bringing the illustrious Maison Leleu back to life. Art, luxury and craft are the foundations of this historic company, a star of the Art Deco movement. The firm's exceptional archives of timeless designs allow Alexia to offer new editions of iconic rugs, custom-made though adaptations of the archive drawings. Each one, signed and numbered, is hand-knotted according to ancestral techniques. From top: green 'Joya' rug, which is offered as an exclusive limited edition with Galerie Marcilhac, renowned Art Deco specialist, and will be shown for the first time at Masterpiece in the Marcilhac space; grey 'Inca' rug, interpreted in new colours by interior designer Steven Payne and Alexia for a private project.
